

National Geriatric Interest Group Research Award Application Form

In the continuing effort to promote learning and excellence in the field of geriatric medicine, the National Geriatric Interest Group is proud to recognize one (1) medical student with a research award for projects initiated or completed in the 2015-2016 academic year, including those initiated in the summer of 2015. The award is valued at \$500. The award winner will also be featured in the next NGIG publication.

The award committee will base their selection on:

- A clear and brief project description with a limit of 1000 words (excluding references).
- The significance of the research question as it relates to geriatric medicine
- The significance of student role in the research project
- Whether there are other funding sources or funding source applications pending
- If uncompleted, a timeline showing it is reasonable to complete the project by the end of June 2016

Please see below for the application form.

Applications must be submitted to amandayc.chen@mail.utoronto.ca by March 13, 2016

Feel free to direct your questions to Amanda Chen at amandayc.chen@mail.utoronto.ca

*** All fields must be filled out in order to process your application***
